A Dividend Re-investment Plan and Bonus Share Plan are currently in operation. As a result of the recent transition by ASX to a T+2 settlement cycle, the Rules of the CTI Logistics Limited Dividend Re-investment Plan and Bonus Share Plan have been varied to amend the last date for the receipt of DRP/BSP election notices from two to three Business Days after the Record Date. This change will maintain the present alignment of the DRP/BSP pricing period with the last date for receipt of DRP/BSP election notices. The DRP/BSP participation status of shareholders will not be affected by the above amendment. The change is effectively immediately and will therefore apply in relation to the interim dividend payable to shareholders on 15 April 2016.

Controlled entities acquired or disposed of

There were no acquisitions or disposals of controlled entities during the current period.

Review of operations and results

Profit before tax for the period was \$23,954,662, including the profit on sale of the long held Bibra Lake warehousing and distribution property of \$18,923,177. The profit before tax excluding the profit on sale of the property was \$5,031,485, down 16.2% on the previous corresponding period. Revenue from operations was up 21.2%, to \$79,023,416.

The underlying results for the period were impacted by a combination of

- * the severe downturn in business activity in the Western Australian economy.
- * weaker than expected throughput in demand from our warehousing client base in late November and December.
- * significant unexpected costs associated with the implementation of a new distribution model and warehousing management system for our largest client in December that has carried through into the current period.
- * building and other costs associated with the partial completion of 13,500 square metres of additional warehouse at Hazelmere.
- * the continued decline in volumes across the courier and general freight markets, along with price and margin pressure.

On the plus side

- * the positive contribution from the mid-2015 acquisition of GMK Logistics.
- * initial expansion into the South Australian market with existing customers.

CTI LOGISTICS LIMITED

1. BASIS OF PREPARATION OF HALF-YEAR REPORT

This general purpose financial report for the half-year reporting period ended 31 December 2015 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. CTI logistics Limited and its subsidiaries (together referred to as the "group") is a for-profit entity.

This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2015 and any public announcements made by CTI Logistics Limited (a for profit Company) during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

Estimates

The preparation of interim financial reports requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this consolidated interim financial report, the significant judgements made by management in applying the group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 30 June 2015.

2. SEGMENT INFORMATION

(a) Description of segments

Management has determined the operating segments based on the reports reviewed by the group's CEO.

The group's CEO considers the business from a product and services perspective and has identified three reportable segments: transport, logistics and property.

The reportable segments are involved in the following operations:

- Transport services - includes the provision of courier, taxi truck, parcel distribution and fleet management.
- Logistics - includes the provision of warehousing and distribution, specialised flooring logistics, supply based management services and document storage services.
- Property - rental of owner-occupied and investment property.

"Other" segments include the provision of security services and the corporate head office. Neither of these segments meets any of the quantitative thresholds for determining reportable segments.

The group's CEO assesses the performance of the operating segments based on segment profit before income tax.
